## P R E F A C E

The fact sheets are provided as an adjunct to the guide books and not as a substitute. The fact sheets will be found useful in planning a trip of a few days, a few weeks, or a 2000 mile trip of the entire Trail. For details as to locations of water sources, for nearby points of interest off the Trail, for the exact location for overnight shelters, for capacity of shelters, and for many other things the hiker will need to use the guidebooks.

All distances shown on these fact sheets are the distances from south to north, starting at Springer Mountain the southern terminus of the Trail.

Hikers finding errors or omissions in these fact sheets are urged to contact the Appalachian Trail Conference promptly giving as much detail as necessary so that the pertinent fact sheet may be immediately corrected.

To conserve space symbols are used on the fact sheets to designate such things as shelters, cabins, camp grounds, etc. The symbols used and the meaning of each follows:

- C – Locked Cabin. For Virginia, Maryland, and Penn. cabins, contact Potomac Appal. Trail Club, 1718 N St. NW Washington, D. C. 20036. For Vermont and N.H. cabins, contact Dartmouth Outing Club 22 Robinson Hall, Hanover, N.H. 03755.
- CG – Camp Ground. A developed site generally with tables, water, toilet facilities.
- CS – Undeveloped Campsite . . . has water, usually nothing else.
- G – Groceries
- L – Lodging as in a motel, hotel or private home.
- LT – Lean-to, an open faced shelter. Some have wooden floors and bunks, some only wire bunks, and others no bunks or floors.
- M – Meals, as in restaurants.
- m – Miles
- n, s, e, w, r, and l – Directions
- NW – No water supply. Non-existent, unreliable or unsafe. Refer to guide book for details.
- S – Shelter. A four-sided but unlocked shelter for housing hikers overnight.
- PO – Post Office. Always shown with the 5 digit zip code.

Where such things as grocery stores and post offices are located away from the Trail, the direction and distance will be shown, e.g., "G 2.3 m. l." meaning a grocery store will be found 2.3 miles to the left of the Trail.

Fact sheets may be purchased from the Appalachian Trail Conference at a cost of \$1.25.

Explanatory Notes:

- (1) The word "Hut" appearing on the fact sheet for New Hampshire refers to a chain of eight structures providing dormitory facilities and meal service. These huts extend some 60 miles beginning with Lonesome Lake Hut and terminating with Carter Notch Hut farther north. The Pinkham Notch Hut is open the year around. The others are open only during the hiking season. Cost for food and lodging in 1970 was \$11.00 per night. Write to Appalachian Mountain Club, Pinkham Notch Camp, Gorham, N. Hamp. 03581 for information. It is best to make reservations in advance
- (2) The symbol "C" used on the New Hampshire fact sheet refers to cabins operated by Dartmouth Outing Club. With two exceptions these are locked cabins. Arrangements for their use should be made with Dartmouth Outing Club, Robinson Hall, Box 9, Hanover, N.H. 03755. There is also one room of the Moosilauke Winter Cabin that is left unlocked.
